Section 7-84. Fire pumps

Effective: Saturday, December 21, 2013

Fire pumps shall serve only the building or structure for which they were installed and shall not be shared with other buildings or structures, except that a single fire pump may be shared between a building and up to 2 parking structures if all of the following are provided:

(a)

All buildings and structures are under the same ownership.

(b)

A "unity of title" for the buildings and structures is provided before the installation permit is issued.

(c)

The fire mains serving each building/structure are installed underground in accordance with NFPA 24.

(Ord. No. 5186, § 2, 12-13-11)
